

AURORA

Flash Feature of the Week!

Aluminum Fender Skirts

Practical and a great a look.

Aluminum Fender Skirts vs Plastic Fender Skirts

✓ Better Look

- Aurora's aluminum fender skirts look better from day 1.
- Over time our aluminum fender skirts will not color fade, needing replacement.

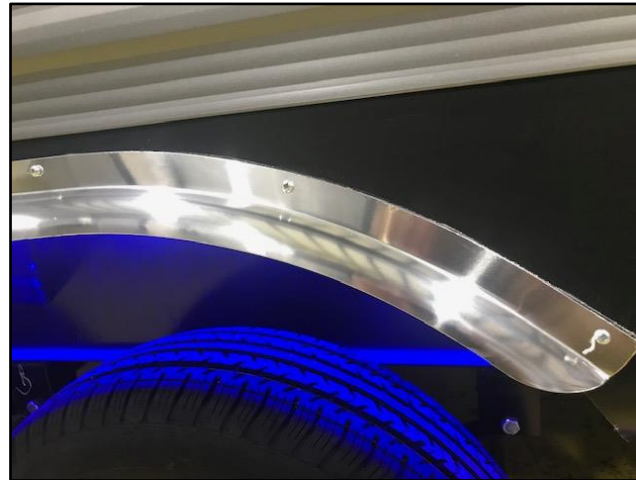

X Bulky/Dated Look

- Plastic fender skirts are bulky and dated.
- Plastic will color fade with sun exposure making the trailer look dated.

✓ Long Lasting

- Aurora's aluminum fender skirts hold up to against the elements and rigorous travel.
- A quick polish will get your fender skirts looking like new.

X Will Wear Down

- Plastic fender skirts will get scratched, cracked, broken and faded needing replacement in as little as 1 year after purchase.

✓ Better Construction

- Our screw points wont crack.
- Eliminates the need for immediate replacement.
- The fender skirt wont fall off or break off.

X Weak Points

- Plastic fender skirts are notorious for cracking at their screw points.
- Needs immediate attention before it creates more issues like debris or break off completely.

Which would you prefer if YOU were a retail customer?
